v. Controlled vs Uncontrolled components
vi. Fetching API
- async, api calling

13.REACT – PART 4

i. Introduce to Redux
ii. Redux progrm
iii. Creating a API Server
iv. Axios
v. Server Side Rendering
vi. Task 2 creating webpage using react

14.NODE – PART 1

i. Introduction to server
ii. intro- npm
iii. Intro-package.json
iii. what is node.js?
iv. Install node.js
iv. Call back

15.NODE – PART 2

i. event driven programing
- event loop
- event emitor

ii. web modules
- intro to path, url, os, http

iii. Buffer & streams
iv. REPL terminal

16.Express

i. Intro to express
ii. http methods- get,post,put,patch,delete
iii. Intro to postman
iv. Request and response object
v. express routing
vi. Middleware
vii. Error handling
viii. Rest api

17.MONGODB – PART 1

i. Database
ii. Into mongodb
iii. SQL vs noSQL
iv. Installation
v. Working with mongodb
vi. Compass vs Atlas
vii. Data type
viii. Options
IX. Schemas
X. Models
